

borderlands fall

Besides exhilarating adventure trips we also organize several guided hikes which last from easy 3 hrs to a full day walking around the settlements near Borderlands. The hike to Borderlands falls, a 140 m waterfall takes you through the historical village of Gati following an ancient trail where the famous Nepali artist Araniko walked during the 17th century. Before the construction of the national highway, this trail was used as the trading route between Nepal and

Tibet. The long-standing custom office still remains as a relic from the past. The village is a colorful mosaic of Sherpa, Tamang and Newars living in religious harmony.

Realizing the importance of responsible business practices, Borderlands has endeavored in its own small way, to make a difference in the lives of the people of local communities. Borderlands Adventure Resort operates as a 'plastic free' zone discouraging the use of plastic bags, playing a vital role in the preservation of the local forest area. In addition, minimizing negative impact to the local flora and fauna, encouraging the use of biodegradable products and raising environmental awareness is another area where Borderlands leads by setting example for others to follow. Providing employment opportunity to the local people is yet another effort which can be proven from the fact that 90 percent of the resort staffs are local people.

Borderlands is the founding member of 'Namaste Nepal' a nonprofit / non-government organization working towards

the theme of 'sustainable education for better living'. School partnerships, school community forest projects, introduction to organic farming and collaborating with local clubs and school committee are the approaches that we have taken in order to develop the skills of the local people leading to a more sustainable development. Besides this, Borderlands has also been supporting 3 local schools in the nearby village of Gati. Among these, some schools are running into the 10th year of Borderlands support and collaboration.

school community forest

As a continued part of its CSR, Borderlands in conjunction with Nepal River Conservation Trust (NRCT) organizes the annual river festival on the Bhothe Koshi and lobbies for its preservation. NRCT has been aggressively involved in the conservation of the Himalayan river system, preserving the cultural heritage and developing an environmentally responsible tourism industry.

## BORDERLANDS eco-adventure resort

The border of Nepal and Tibet is an adventure playground and the Borderlands Resort has pioneered the opening of this amazing area for travel and journey of discovery. We offer the adventure seeker one of the finest experiences to be found on this Himalayan region. Located a mere three hours north of Kathmandu and just 16 km south of the Tibetan Border, Borderlands Eco Adventure Resort is a truly magical place enveloped in the natural Himalayan splendor. Built on beautifully sculpted sprawling terraces alongside the powerful Bhoté Koshi River, the Borderlands Resort is unique and unlike any place you have ever been before. Safari style tents, clean mountain air and tantalizing meals compliment the friendly atmosphere of this riverside resort. The restaurant operates like a traditional home type kitchen, serving family style dishes. Our menu changes daily and with advance notice, special dietary needs can be catered too.

Borderlands Eco Adventure Resort is a host to a multitude of outdoor wilderness activities. Pioneers of Canyoning in Asia, Borderlands introduced this sport in Nepal in 1997, at a time when the term 'canyoning' was not even heard of in this part of the world. We offer the most extensive knowledge and expertise with a variety of canyons from exploratory walks for school children to some of the most extreme environments. Ideally located at the highest raft put-in-point on the Bhoté Koshi River gives an additional 2.5km of pure whitewater stretch. Having established itself as an organization for almost flawless management of events, incentive group tours, annual retreats, Borderlands offers the opportunity to explore its Professional Development and Leadership courses. Customized to meet your specific training needs our programs range from individual lectures, seminars, half day activity to multi days residential courses.

Whether it is the challenge of rafting in the mighty Bhoté Koshi, a canyon descent, off - the - beaten trek to a hidden monastery or a mountain bike ride, we invite you to step in and share this inspiring experience. You can pick and choose your own adventure from 2 to 14 days out of Borderlands.

amazing canyoning

rafting on world class bhotekoshi

Ultimate Descents Nepal (UDN) and the Himalayas are two names that are synonymous with whitewater in this remote yet breathtaking part of the world. A proud winner of the Tourism Award in whitewater rafting and kayaking for five consecutive years Ultimate Descents Nepal is still at the forefront of whitewater voyages in Nepal.

Safety is the number one priority at Ultimate Descents Nepal and our outstanding record proves just that. To ensure a safe trip we employ some of the most experienced river professionals certified in Swift Water Rescue Techniques and Wilderness First Aid.

Drawing its amazing power from high up in the Tibetan plateau, the Bhoté Koshi River is among the top ten rivers for rafting and kayaking in the world. Stunning location, thrilling drops and unusual limestone rock formation all make this river a much preferred trip for rafters, both beginners and advanced.
